Overview

Soft and dainty, Sofi is a beautiful addition to your handmade spring and summer wardrobe! The textured body, delicate eyelet accents, tie shoulder straps, and lacy baby-doll hem all make for a flirty and graceful silhouette. Omit the bottom hem for a more casual style! This tank top looks beautiful styled with shorts and flowy skirts, or even layered over fitted tees!

This pattern is written "measure yourself" style- meaning it can be scaled to any size you'd like using your measurements, with any yarn of your choosing. This pattern does **not** contain specific stitch counts, sizes, yardage, or gauges!

This pattern can be made using any yarn, but works best with sport, dk, or light worsted weights.

STITCHES + ABBREVIATIONS (US TERMINOLOGY)

ch - chain
sc - single crochet
dc - double crochet
hdc - half double crochet
sk - skip
lp - loop
prev - previous
yo - yarn over
sl st - slip stitch
rnd - round
YO - yarn over

SPECIAL STITCHES

Lemon Peel St - See Page 5

LP Inc - Lemon Peel Inc - See Page 6

LP Dec - Lemon Peel Decrease - See Page 7

Loop St - *sc, ch 3, sc* in same stitch

Double V St - *2dc, ch 1, 2dc* in same stitch

PROJECT DIFFICULTY: INTERMEDIATE

This design requires some skills and knowledge in using stitch patterns while increasing and decreasing, and working in the round. It is recommended to have some experience with making garments before trying this project!

Construction Summary

Sofi is constructed all in one piece. This garment is worked **sideways** (ie from right to left, rather than top to bottom) in turned rows, in one long strip, starting at the right side of the front.

The front is worked, increasing and decreasing to shape the neckline, with stitch markers placed to indicate where to place the straps later. The back is then worked, placing more stitch markers to align with the ones in the front. The piece is then folded in half, with the first and last rows aligned, and seamed up the side to create the top.

The yarn is then reattached to the top to finish the neckline and add the straps, and then again at the bottom to add your choice of either a simple matching border, or a baby-doll style ruffled hem.

WHAT I USED FOR THIS PATTERN

- 450 m (approx) Hooooked Somen Yarn in shade *Zucca* (dk weight)
- 4.25 mm hook
- 5.5mm hook
- Scissors
- Tapestry Needle

The finished sample fits a US women's size extra small. Throughout the tutorial I will have references to the stitch and row counts I used.

MEASUREMENTS YOU'LL NEED

- **Chest circumference** (The width around the widest part of your chest)
- **Quarter Chest Circumference** (your chest circumference, divided by 4)
- **Underarm to Hem** (ie the length of the main body of the top, excluding the baby-doll hem, from the deepest/lowest part of the neckline and underarms)

Lemon Peel Stitch Walkthrough

This fun stitch has a simple 2 row repeat and requires an odd numbered amount of stitches. You will simply be alternating between single crochet and double crochet stitches until the end of the row. **You will always be placing a dc into every sc from the previous row, and vice versa!**

Important: In the Sofi Top pattern, your first two stitches are a half double crochet and chain space (made with your starting ch 3), and your last two stitches are a chain space and half double crochet. These create eyelets on either side of your work. You'll always be working the Lemon Peel Stitch **between** these two eyelets.

ODD Numbered Rows: Sc into your first st. *Dc, sc* across. Turn.

EVEN Numbered Rows: Dc into your first st. *Sc, dc* across. Turn.

Each dc should correspond with a sc from the previous row, and vice versa!

LP Increase Walkthrough

The LP Inc (Lemon Peel Increase) is a method used in this tutorial to increase your stitch count. It's used to shape the neckline and is very easy to do! Each LP increase made adds TWO stitches to your total stitch count.

To make an LP Inc: *Dc, sc, dc* into the same stitch.

TIP:

This increase is designed to be used when working into a **single crochet from the previous row**. this helps to maintain the Lemon Peel stitch pattern. If you'd like to make an increase in an area that corresponds with a double crochet from the previous row instead, work the increase as follows:

**Sc, dc, sc* into the same stitch*

You can also choose to simply work 3dc into the same stitch if you prefer a more simple method, though this will make your increases stand out a little more.

LP Decrease Walkthrough

The LP Dec (Lemon Peel Decrease) is a method used in this tutorial to shape the neckline and is a variation of the dc3tog (double crochet 3 together) technique. Each LP decrease made subtracts TWO stitches to your total stitch count.

To make an LP Inc: YO, insert hook into next st, pull up a lp. YO, pull through 2 loops. (2 loops on hook)

TIP: Think of this first part of the stitch like you're starting a double crochet stitch, but not finishing it all the way.

It should correspond with a sc from the previous row.

Insert hook into next st, pull up a lp. (3 loops on hook)

TIP: Think of this second part of the stitch like you're starting a single crochet stitch, but not finishing it all the way.

It should correspond with a dc from the previous row.

LP Dec instructions continued on next page...

LP Decrease, Continued

YO, insert hook into next st, pull up a lp. YO, pull through 2 loops. (4 loops on hook). YO, pull through all 4 loops on hook. Decrease completed.

TIP: Think of this third part of the stitch just like the first part- you're starting a double crochet.

It should correspond with a sc from the previous row.

When you pull through all 4 loops on the hook, you're completing each of the 3 stitches together under one loop, which makes the decrease.

TIP:

This decrease is designed to be used when the next 3 stitches correspond with a **single crochet, double crochet, and single crochet from the previous row**. this helps to maintain the Lemon Peel stitch pattern. If you'd like to make an increase in an area that corresponds with the opposite stitches instead, work the increase as follows:

Insert hook into next st, pull up a lp.

YO, insert hook into next st, pull up a lp. YO, pull through 2 loops.

Insert hook into next st, pull up a lp. YO, pull through all 4 loops on hook.

You can also choose to simply work a 3dctog into the same stitch if you prefer a more simple method, though this will make your decreases stand out against the stitch pattern.

Pattern Notes

- As mentioned in the overview, this pattern is written as a "measure yourself" style tutorial- this allows for the most inclusivity in terms of both size and yarn selection for this project! There are **no** stitch counts, gauges, or specific sizes in this pattern. If you have any questions about sizing this piece, please don't hesitate to contact me!
- This project is worked in turned rows, then transitions to joined **untuned** rounds for the neckline and bottom edging.
- The ch 3 at the beginning of each row counts as a hdc + ch 1, unless otherwise specified.
- The ch 3 at the beginning of each round of the baby-doll hem counts as a dc and is part of the first double v stitch of the round.
- You should ALWAYS be working with an odd number of stitches when working the main body of this top.
- When working the main body, the stitch that the lemon peel stitch section starts with should be the same as the stitch that the section ends with.
- This pattern is meant to fit with little to no ease, so when taking your measurements, don't add any extra inches to your chest circumference unless you intentionally want it to fit looser.
- You should ALWAYS have the same number of increases as decreases when working the front section of this top. When you finish decreasing in a section, double check to make sure that your stitch count is the same number as your starting chain. This is CRUCIAL!

Pattern Notes

- The increases and decreases occur symmetrically in this pattern- for example, the row right before your stitch marker will be an increase, and the row right after will be a decrease. Your shaping should always be mirrored to the previous section.
- Every increasing or decreasing row should have a row of Lemon Peel St that is worked evenly, meaning it contains no shaping.
- For large steps, this pattern will sometimes break up the text in order to match the instructions with a corresponding picture. Each new step will **always** have a number in front of it!
- For extra drape in your garment, use a hook size that is 1-2 times larger than what's recommended on the label.
- To get an even more flowy baby-doll hem, opt for a hook size that is 2-4 times larger than what was used to make the body of the top.
- If you have any additional questions, please don't hesitate to contact me at crochet.by.becks@gmail.com , and I will do my best to help you out!

Ready?
Let's get started!

PART 1: INCREASING THE RIGHT FRONT HALF

1) Ch a length that reaches from your underarm to your desired hem length, ensuring it's an odd number.

TIP: Your starting chain will be the **lowest** point of your top, and we won't be adding to this measurement aside from shaping the neckline, so make sure it's the length that you want it!

I made 29 chains, which reaches from my underarm to just above my bellybutton.

Ch an additional 3 (counts as hdc +ch 1), sc into the 6th ch from your hook. *Dc, sc* until reaching final 2 sts. Ch 1, sk 1 st, hdc in final st. Turn.

INCREASING THE RIGHT FRONT HALF, CONTINUED

2) Ch 3 (counts as hdc +ch 1), sk ch sp, LP Inc in next st.

TIP: Our increasing rows occur when we're working from the top of the neckline down to the bottom- which is every even numbered row!

Lemon Peel St across until reaching ch sp. Ch 1, sk ch sp, hdc in final st. Turn.

3) Ch 3 (counts as hdc + ch 1), sk ch sp, sc in next st. Lemon Peel St across until reaching ch sp. Ch 1, sk ch sp, hdc in final st. Turn.

INCREASING THE RIGHT FRONT HALF, CONTINUED

Repeat steps 2-3 until your piece is **half the amount** of your Quarter Chest Circumference.

I worked a total of 11 rows, 5 of which being increasing rows, to reach 4 inches, which is half of my Quarter Chest Circumference (8 inches).

IMPORTANT: KEEP TRACK OF HOW MANY INCREASES YOU MAKE! We will need to match the number of increases with decreases in the next step.

IMPORTANT: Make sure your last row worked before proceeding to step 4 is a **step 3** row- it should have no increases and your working loop should be at the top edge of your shirt. Place a marker in the final hdc of this row for strap placement later on in Part IX.

This marker will indicate where to place the tie strap later on in the pattern, and also marks the "halfway" point of the right side before we start on our decreases.

PART II: DECREASING THE RIGHT FRONT HALF

4) Ch 3 (counts as hdc + ch 1), sk ch sp, LP Dec. Lemon Peel St across until reaching ch sp. Ch 1, sk 1 st, hdc in final st. Turn.

TIP: You can find a breakdown of how to LP Dec in the Lemon Peel Stitch Walkthrough section on page 7!

TIP: For an easier option, you can opt to dc3tog (double crochet 3 together) instead of doing an LP Dec.

5) Ch 3 (counts as hdc + ch 1), sk ch sp, sc in next st. Lemon Peel St across until reaching ch sp. Ch 1, sk ch sp, hdc in final st. Turn.

DECREASING THE RIGHT FRONT HALF, CONTINUED

Repeat steps 4-5 until you've made the same number of decreases as you did increases in the previous section. **End on a step 5 row.**

I made 5 rows of decreases, with a row worked evenly between each decrease, to match the increases made in the previous section.

TIP: After completing your final row, you should have the same stitch count as your starting chain, as well as the same number of rows on the opposite side of your stitch marker.

Your piece should also measure to be your Quarter Chest Circumference now!

PART III: CENTRE EYELET DETAIL

6) Ch 3 (counts as hdc + ch 1), sk ch sp, hdc in next st. *Ch 1, sk 1 st, hdc in next st* across. Turn.

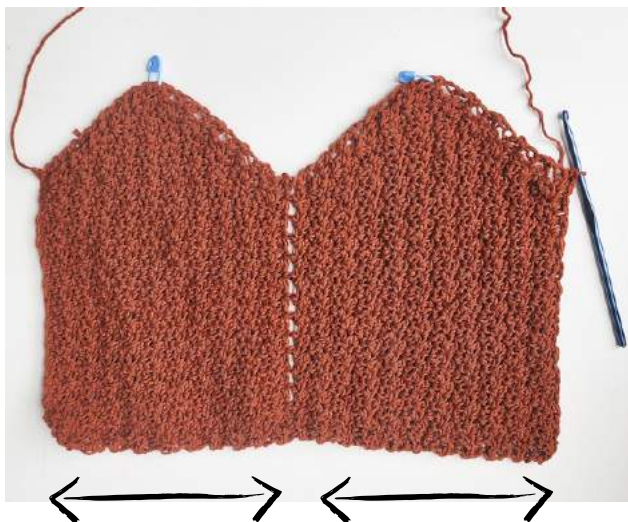

PART IV: WORKING THE LEFT FRONT HALF

7) Ch 3 (counts as hdc + 1), sk ch sp, sc in next st. Lemon Peel St across until reaching ch sp. Ch 1, sk ch sp, hdc in final st. Turn.

Repeat steps 2-5 to shape the left front half, working the same number of rows, increases, and decreases to match the right front half.

My chest circumference is 32 inches, so the front of my shirt is 16 inches wide.

Both sides of the front of my shirt measure to be 8 inches.

IMPORTANT! Your finished front half should measure to be **half of your full chest circumference!**

Your left and right sides should be identical. They should have the same number of increases, decreases, and rows.

Your current stitch count should be the SAME as your starting stitch count!

PART V: WORKING THE BACK LEFT HALF

8) *Left Side Eyelet*: Ch 3 (counts as hdc + ch 1), sk ch sp, hdc in next st. *Ch 1, sk 1 st, hdc in next st* across. Turn.

9) Ch 3 (counts as hdc + ch 1), sk ch sp, sc in next st. Lemon Peel St across until reaching ch sp. Ch 1, sk ch sp, hdc in final st. Turn.

TIP: the back of this top is worked evenly, meaning there are no increases or decreases. Your stitch count should always remain the same!

10) Ch 3 (counts as hdc + ch 1), sk ch sp, dc in next st. Lemon Peel St across until reaching ch sp. Ch 1, sk ch sp, hdc in final st. Turn.

WORKING THE BACK LEFT HALF, CONTINUED

Repeat steps 9-10 until you have two rows less of Lemon Peel st than what you worked when making the increases in sections I and II.

TIP: We're making two less Lemon Peel stitch rows than in the front because we are substituting eyelet rows instead!

I had 11 rows of Lemon Peel stitch in Part I before proceeding with Part II, so I worked 9 rows of Lemon Peel St here.

11) *Back Strap Eyelet:* Ch 3 (counts as hdc + ch 1), sk ch sp, hdc in next st. *Ch 1, sk 1 st, hdc in next st* across. Turn.

TIP: This eyelet row corresponds with the eventual placement of the back strap. It should line up with the marked row on the front side! Be sure to place a stitch marker on the neckline side of this row.

Repeat steps 9-10 until you've worked the same amount of rows between the side left eyelet and left back strap eyelet.

I worked another 9 rows of Lemon Peel St to match the amount made on the other side of the back strap eyelet.

PART VI: WORKING THE CENTRE BACK EYELETS

12) *Centre Eyelet detail:* Ch 3 (counts as hdc + ch 1), sk ch sp, hdc in next st. *Ch 1, sk 1 st, hdc in next st* across. Turn. Repeat twice more for a total of 3 centre eyelet rows.

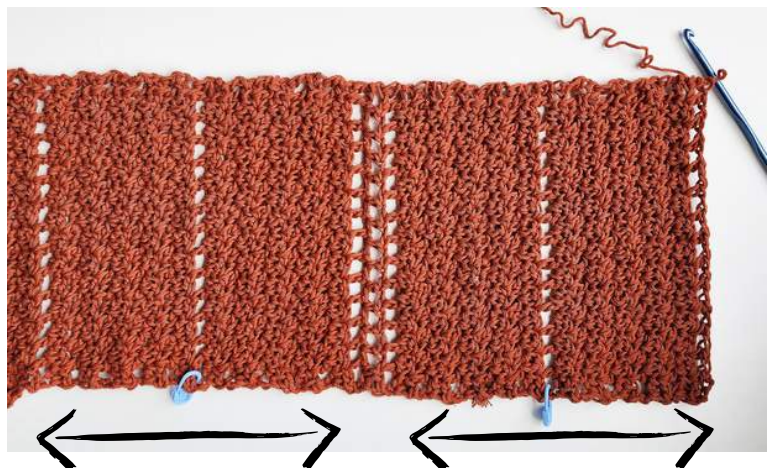

TIP: Think of the inner and outer eyelet rows as corresponding to the rows right before and after the centre eyelet row in the front panel!

PART VII: WORKING THE RIGHT BACK HALF

Repeat steps 9-11, working the same number of rows to match the left side. Repeat step 8 once more to create the right side eyelet.

TIP: When working the back, your Lemon Peel St sections should all be the same number of rows!

PART VIII: JOINING THE FRONT AND BACK

We've crocheted one big, long strip, and now it's time to join our first and last rows together to turn this strip of fabric into a garment! Fold your work in half, bringing your first and last rows together.

13) Ch 1, working through both layers of fabric and keeping your sts aligned, sl st across until reaching end of row.

We are all finished with the main body of our top! Now we can proceed with the neckline, tie straps, and finishing up the bottom section.

TIP: Your working loop should be at the top of your shirt now, ready for the neckline! If for whatever reason it's not, you can skip ahead to Part X to finish the bottom first, then re-attach your yarn to the neckline side and proceed with Part IX.

PART IX: NECKLINE EDGING + STRAPS

14) Sl st into nearest hdc post. Ch 1, working along the side of your work, *Loop St in hdc post , sc in next hdc post* across until reaching first st marker.

Creating Tie Strap: Sc into marked hdc post. Ch 3, dc into post. *Ch 3, dc into top of dc just made*.

Repeat from * until your strap is your desired length. Ch 7, sc into top of dc just made.

I made a total of 28 loops for my strap.

Step 14 continued on next page...

PART IX: NECKLINE EDGING + STRAPS

Ch 3, sc into base of next dc across your strap until reaching the end. Ch 3, sc into marked hdc post to complete your strap.

TIP: We're now working loops along the opposite side of the dc posts, back down the strap.

Sc back into your marked hdc post to secure that final loop!

Continuing Neckline Edging: *Sc into next hdc post, Loop St in next hdc post* until reaching second stitch marker. Repeat Tie Strap Instructions into second marked hdc post.

TIP: Since the back of the top is worked to be lower than the front, you can make the tie straps in the back a little bit longer than the ones in the front so that they match in length!

Step 14 continued on next page...

NECKLINE EDGING + STRAPS, CONTINUED

Repeat Neckline Edging instructions, working Tie Straps into the remaining two marked sts. Sl st into first sc of Loop St made at start of rnd. Fasten off.

PART X: BOTTOM EDGING (OPTION 1)

This option for Sofi results in a simple border that matches the decorative stitching along the neckline. This is a great way to finish off your shirt if you're looking for more of a basic camisole silhouette!

1) Attach yarn to any of the hc posts at the bottom of your work. Ch 1, working along the side of your work, *Loop St in hdc post, sc in next hdc post* around until reaching end of rnd. Sl st into first sc of Loop St made. Fasten off.

PART XI: BOTTOM EDGING (OPTION 2)

This option for Sofi gives the garment a beautiful baby-doll style hem, which adds loads of volume and texture to the silhouette.

1) Attach yarn to any of the hdc posts at the bottom of your work. Ch 3 (counts as dc), working along the side of your work, dc, ch 1, 2 dc into the same hdc post.

Sk next hdc post, *Double V St into next hdc post, sk next hdc post* around. Sl st into top of ch 3 at beg of rnd.

IMPORTANT:

We are no longer turning our work!

PART XI: BOTTOM EDGING (OPTION 2)

2) Sl st into ch sp of Double V st from prev row. Ch 3 (counts as dc), dc, ch 1, 2 dc into the same st. Ch 1, *Double V St into next ch sp, ch 1* around. Sl st into top of ch 3 at beg of rnd.

TIP: You'll always be working your Double V stitches into the chain space of the Double V stitch from the previous round. They should always be aligned with the one beneath!

3) Sl st into ch sp of Double V st from prev row. Ch 3 (counts as dc), dc, ch 1, 2 dc into the same st. Ch 1, dc into next ch sp, ch 1, *Double V St into next double v ch sp, ch 1, dc in next ch sp, ch 1* around. Sl st into top of ch 3 at beg of rnd.

PART XI: BOTTOM EDGING (OPTION 2)

4) Sl st into ch sp of Double V st from prev row. Ch 3 (counts as dc), dc, ch 1, 2 dc into the same st. Ch 3, sc into next dc, ch 3, *Double V St into next ch sp, ch 3, sc in next dc st, ch 3* around. Sl st into top of ch 3 at beg of rnd.

5) Sl st into ch sp of Double V st from prev row. Ch 3 (counts as dc), dc, ch 1, 2 dc into the same st. Sc into next ch 3 sp, ch 3, sc into next ch 3 sp, *Double V St into next ch sp, sc in next ch 3 sp, ch 3, sc into next ch 3 sp* around. Sl st into top of ch 3 at beg of rnd.

PART XI: BOTTOM EDGING (OPTION 2)

6) Sl st into ch sp of Double V st from prev row. Ch 3 (counts as dc), dc, ch 1, 2 dc into the same st. Ch 3, sc into next ch 3 sp, ch 3, *Double V St into next ch sp, ch 3, sc into next ch 3 sp, ch 3* around. Sl st into top of ch 3 at beg of rnd. Fasten off.

Weave in all ends and enjoy your new Sofi Top!

Share it online!

#SofiTop

Customization Ideas

- You can adjust the length of the baby-doll hem by working steps 5 and 6 until it's your desired length. Try making Sofi into a dress!
- Reduce how steep the neckline shaping is by working more rows of Lemon Peel Stitch evenly between increases. Just make sure that you work the same number of increases as decreases, and they occur at the same rate, mirroring the section previous to your marked stitch at the top of the front/left sides!
- For a bandeau version of this top, try making this piece without any increases. Make your starting chain the desired length of your top and go from there!
- You can omit the eyelet rows entirely and work them as normal Lemon Peel Stitch rows if you prefer a more solid look.
- If you want more sleek straps, simply make a chain that is your desired length + 2 extra stitches, hdc into the third ch from hook and each across. Slip stitch into the marked hdc post.
- Spice up your straps by adding tassels or beads to the ends of them!
